CRANE'S LETTRA

Since 1801, Crane Cotton Papers have been the gold standard of American papermaking. Today, Crane's Lettra Letterpress finish provides benchmark performance not only for letterpress printing, but every impact process including engraving, embossing, and foil stamping.

Mohawk is proud to continue the Crane legacy using pure cotton fibers and meticulous craftsmanship for the entire Crane's paper portfolio.

WATERMARKS LEGENDA

CG: Cross Grain

CG/HF: Cross Grain, Head-to-Foot

The top of the watermark reads to the bottom of the watermark above. Therefore, on the master sheet all watermarks read correctly from one side of the sheet. The watermark imprints perpendicular to the paper grain.

LG/HH: Long Grain, Head-to-Head

The top of the watermark reads to the top of the watermark above, which is upside down. Therefore, on the master sheet half of the watermarks read correctly from one side of the sheet, while the other half appear upside down. The watermark imprints along the paper grain.

WATERMARKS LEGENDA

CG: Cross Grain

CG/HF: Cross Grain, Head-to-Foot

The top of the watermark reads to the bottom of the watermark above. Therefore, on the master sheet all watermarks read correctly from one side of the sheet. The watermark imprints perpendicular to the paper grain.

LG/HH: Long Grain, Head-to-Head

The top of the watermark reads to the top of the watermark above, which is upside down. Therefore, on the master sheet half of the watermarks read correctly from one side of the sheet, while the other half appear upside down. The watermark imprints along the paper grain.
