SMI Technology

PRODUCT INFORMATION
Heavy Cloth / S1560H

Description

S1560H is a 100% polyester Woven fabric banner which is perfectly absorb solvent inks. It is suitable for eco and mild solvent inks. It makes possible to print on a variety of super wide format plotters. S1560H delivers accurate colors and vivid results on its high-quality semi matte surface.

Application

► **Outdoor/Indoor signs**   ► **Banner Stand (revolving)**   ► **Booth display**   ► **Wall Advertising**   ► **Flying banner**   ► **Roll up exhibits**   ► **Available any kinds of display anywhere**

Composition

Base material   : **100% polyester Woven fabric.**   /   **Denier : 150 X 600**

Application Inks   : **Solvent, Eco Solvent, Latex, UV inks**

Technical data

	Result	Test Method
Total thickness	**243±5 micron**	**ASTM D645**
Total weight	**216±3 g/㎡**	**ASTM D646**
Opacity	**> 95.7 %**	**ISO 2471**
Whiteness	**99.9**	**ISO 105-J02:1997**
Surface finish	**Semi matte**	
Water Proof : O Fire Retardant : X		

Condition of use / Stocking

All SMI solvent materials always need to be stored in their packing and with the original protection flanges (and preferably stored vertically). In order to avoid any loss of quality, the Solvent Woven fabric should also be stored in suitable conditions, that is at a temperature 70°F (21℃), and a relative humidity of 20%~60%.

Remark

Large amounts of solvent ink on the material can activate the ink on the backside of the material. If the material is enrolled too quickly after printing, the print on the backside of the material may become visible in your printout. Therefore we advise you to limit the amount of ink and to leave the prints to dry sufficiently before enrolling them.

Availability

roll size	core size	box dimension/mm	gross weight/kgs
36" x 30M	**3inch**	**1450 x 1450 x 964**	**7.9**
50" x 30M	**3inch**	**1450 x 1450 x 1320**	**10.3**
54" x 30M	**3inch**	**1450 x 1450 x 1420**	**11.1**
60" x 30M	**3inch**	**1450 x 1450 x 1575**	**12.3**
